

# tell your mother-in-law the guest room is taken

**providing a foster home for an animal not only saves  
his life, but it helps prepare him for his new home**

fostering an animal is ideal for seniors, students, people who  
travel a lot or people who love animals, but are not ready  
for long-term commitment

food and veterinary care is paid for; you provide a safe,  
warm place to sleep, social interaction, daily walks (for dogs)  
and help your foster animal learn how to live in a home

please contact us to learn about short-term foster opportunities  
(1 week, 2 week, 4 week, 8 week)
